

My life is so much better since I have been on the Indiana Attorney General's no call list. For instance, Ameritech used to call me at least 3 times a week with essentially the same deal pitched at every call. I know when my phone rings now it is someone I want to talk to and not someone selling something that I do not want or need.

The FCC should not implement anything that would lessen Indiana's Telephone Privacy law protections. Please let us be free of unwanted phone calls. Thank you for your consideration of my concern. Martha Catt
